Information Solutions Coop at Lubrizol

Cameron Flack – Washkewicz College of Engineering, Computer Science

Choose Chiefirst

INTRODUCTION

I am Cameron Flack, a computer science major at Cleveland State University. I was given the opportunity to work at Lubrizol, within their custom application team in the Information Solutions department. I worked with them during the Spring 2023 semester.

- Learn more about the software development process
- Work with automation flows inside the company to streamline business tasks
- Examine gathered data to aid in making well informed business decisions

RESPONSIBILITIES AND PROJECTS

Work with several departments and teams within Lubrizol to build customized solutions inside the Figure 1. Lubrizol Wickliffe Headquarters.

APPLICATIONS OF COURSES

- Data Structures and Algorithms After this term, I have realized how much work is done with data in the industry. This course helped me understand data, how to organize it, and how to manipulate and examine it.
- Software Engineering While working with various other teams at Lubrizol, concepts from Software Engineering helped by tabulate specifications and development organize timelines.
- Database Concepts Although I have not yet this class already knowing a lot of the basic concepts.

LESSONS LEARNED

It was fun applying the topics I have learned in my classes in my daily work. I also learned a lot of new things about databases and the software development process. This was my first experience in the engineering industry, I gained a lot of professional communication skills. Everything that I worked on was important for various teams, so I learned critical business skills. Using data first technology, I learned a strong ability to architect cloud data sources, that facilitates proper low code development

FUTURE CAREER OBJECTIVES

Lubrizol has helped me gain many skills in different areas, all of which I am interested in for a future career. I wish to keep learning about the application of computer swith

various leaders and peers within the organization
